ABOUT ME

I'm a software engineer specialized in data platforms and AI automation, with 4 years of experience in data across e-commerce and retail. I'm passionate about technology and products, and I excel in environments that value curiosity, innovation, and attention to detail.

EXPERIENCE

Back End Developer

Mercado Libre

Argentina

2025-Present

- Led the architecture of a high-volume data process migration from batch to real-time for financial decision-making, designing scalable distributed systems on AWS using Python and Golang.
- Designed and developed RESTful APIs and worked with SQL and NoSQL databases as part of the distributed architecture.
- Developed AI automations and agents using n8n to optimize workflows.

Ssr Data Engineer

Mercado Pago

Argentina

2024-2025

- Built several ETL data pipelines using Google Cloud Platform, Python, and SQL, supporting data processing and analysis for fraud prevention.
- Optimized complex SQL queries in BigQuery, reducing team job delays from 4 to 2 hours and improving performance by up to 50%.

Ssr Data Analyst

Mondelez

Argentina

2022-2024

- Collaborated in the development of a product recommendation system for points of sale using Machine Learning, which allowed for a larger number and better variety of products to be placed.
- Performed data analysis on sales, distribution, geolocation, and socioeconomic data using Python, feeding a model that helped define effective customer segmentation.

SKILLS

Skills: Python, SQL, Golang, AWS, GCP, Datadog, Grafana, Terraform, Docker, GitHub Actions

PROJECTS

Real time streaming assistant

2026

Built a real-time dashboard for scoring live chat/webhook events and displaying relevant highlights via WebSockets.

Expense ETL pipeline

2025

Built an automated ETL pipeline integrating email, ticket images upload via Telegram bot, and daily report from Mercado Pago via webhook into analytical storage.

Price optimizer for Mercado Libre sellers

2023

Built a Python-based price optimizer using competitor data to maximize "Winner" status on Mercado Libre listings.

EDUCATION

Instituto Tecnologico de Buenos Aires, Argentina

Industrial Engineering

2016-2022
